- NEED ANALYSIS (Why the procurement was necessary?) The construction of new ATC Tower has been completed which is situated on Departure Lounge roof of terminal building 2nd floor and pedestrian passage is approx. 177 feet apart from Terminal building telephone exchange and ASF CCTV room gallery which is open to sky. Mostly on roof there are many hurdles in form of HVAC pipes fittings, electrical wires and various equipment and cables etc. which takes time to clear these hurdles while going to ATC tower which is dangerous especially during rain and may cause electric shock and is continuous safety hazard for the employees of ATC, ECR, Com, OPS, MET going on ATC tower and to provide stress free and for easy access an elevated metal platform consisting of 18 inches high and 60 inches wide with railing along with the glass sheet canopy to safe from weather effect to functionaries. during rainy season water accumulates on roof where already duct pipes are laying and is also difficult to walk in water. The Air traffic officer ATC during flight operation to discuss with ATC controller for information and for other corresponding process. The senior Air traffic officer, Fa salabad Airport has requested vied letter no FIAP 1443-21/255 FAAT 1443 dated 17th March 2021 for providing hassle free access to new constructed ATC Tower. The Airport Manager has also requested to provide this facility on priority. Hence this estimate has been prepared to cover the probable cost of the subject work.
