BRIEF INTRODUCTION

National Vocational and Technical Training Commission (NAVTTTC) is the apex body for technical education and vocational training in the country, established under the NAVTTTC Act-2011, NAVTTTC is mandated to provide for regulations, coordination, and policy direction for vocational and technical training and is thus involved in the policy making, strategy formulation, regulation, and revamping of the entire TVET system.

2. With 1.4 million registered Afghan refugees, Pakistan continues to host one of the world's largest protracted refugee populations. Children and youth constitute 64 per cent of the Afghan refugee population. Nearly 50 per cent of them are girls and women. The majority of Afghan refugees were born in Pakistan. Some 68 per cent reside in semi-urban and urban areas, while 32 per cent remain in 52 refugee villages throughout the country.

3. The majority of Afghan refugees residing in Pakistan are daily labourers with low income due to limited livelihood opportunities and a lack of marketable skills. Due to a lack of systematic formal training following secondary school, youth face obstacles entering into the skilled labour market and encounter high competition in the unskilled job market. Finding employment to sustain themselves and their families is a serious challenge for Afghan refugees in Pakistan and economic vulnerability places persons of concern at risk of exploitation and abuse. Therefore, UNHCR Pakistan is working to support refugees in making a safe and sustainable living that meets their basic needs, contributes to their dignity, and provides for the full enjoyment of their human rights.

4. In order to overcome the above-mentioned challenges for both host and Afghan youth, UNHCR and the National Vocational and Technical Training Commission (NAVTTTC) have started to work in partnership in 2018 to provide quality, certified and internationally recognized vocational and technical trainings to refugees and host communities. For Afghan trainees in particular, acquiring transferable skills is crucial to support themselves and their families in a dignified manner for the duration of their stay in Pakistan and after their voluntary repatriation to Afghanistan. UNHCR and NAVTTTC have successfully completed VT Skill trainings for Cohort A, B, C and D in 2019,20,21, and 22 for more than 5,010 refugee and host youth.

5. A new training Cohort-D for 1,511 trainees commenced in May 2022 and will complete their trainings in Nov 2022. This project aims enhancing livelihoods opportunities of 1,511 Afghan refugee, stateless, asylum seekers, mandate refugees and host youth by providing vocational skill development trainings and internships opportunities in four provinces and capital territory Islamabad. Upon successful completion of trainings, they will receive tool kits and certificates.

6. The National Vocational and Technical Training Commission (NAVTTTC) is a Government Organization at the national level to regulate, facilitate and provide policy direction in the area of vocational and technical training. The Commission is establishing and promoting linkages among various stakeholders at national as well as international level like provincial TEVTAs, VT Institutions, Private Sector/Chambers of Commerce, Ministry of labour, and Trade Associations. Since its inception, NAVTTTC has given high priority to un-addressed areas and challenges faced in the area of Technical Education and Vocational Training (TVET).
