➤ NEED ANALYSIS (Why the procurement was necessary?)

1. The project 'Modernization and Up-gradation of Pakistan Mint' is a thorough venture divided in multiple phases aimed at bringing about state of the art advanced technological practices and machinery in the subject entity. A consultancy study was thus recommended/approved by the Departmental Development Working Party (DDWP) in its meeting on June 15, 2017 for carrying out detailed engineering drawings in respect of civil work, layout and foundation plans for machinery & equipment, electrical drawings and wiring schedules, HVAC diagrams etc., and to ascertain the overall prospective cost along with completion period.
2. Phase II (PC-II) of the modernization scheme has therefore, been initiated in July 2017 for conducting the said consultancy which is currently in progress under the development scheme titled 'Modernization & Up-gradation of Pakistan Mint, Phase-II', and is in full swing that is to be completed before June 2018.

IN CASE EXTENSION WAS MADE IN RESPONSE TIME, WHAT WERE THE REASONS (Briefly describe).

The tender was floated firstly in September 2017, however on request of multiple bidders the date was extended by 1 month (Annex-I Minutes of Meeting attached). After the extended date, the received proposal was rejected in the best public interest owing to its exorbitantly high price i.e. 150 Million PKR (Annex-II Minutes of Meeting). The tender was thus again floated in December 2017 to invite proposals.
