1. Evaluation Criteria

The bids will be compared and evaluated as described in ITB section-E "Evaluation & Comparison of Bids". In addition to evaluation parameters given therein, following evaluation criteria shall also be used for the purpose of evaluation of this tender.

The comparison of bids shall be made on the basis of Ex-works & CIF Karachi prices for goods to be offered from within the purchaser's country and from outside the purchaser's country respectively.

1.1 Technical Criteria

It will be examined in detail whether the Goods offered by the bidder comply with the technical specifications of the Bidding Documents. For this purpose, the bidder's Specific Plant data & drawings submitted with the bid will be scrutinized and only those bids which offer goods technically conforming to the requirements of the bidding documents shall be considered for further evaluation.

The Cost of all quantifiable deviations or deficiencies from the technical specifications as specified in Section 6, Schedule of Supply shall be evaluated. The Purchaser will make its own assessment of the cost of these deviations or deficiencies for the purpose of ensuring fair comparison of Bids.

1.1.1 Type Testing

The Goods offered by the Bidder shall be type tested in accordance with Specifications - Technical Provisions and Special Provisions of the Bidding Documents. In this regard, the Bidder shall submit, with his bid, the type test reports/results, as described in GCC clause 26.4, of similar plant and equipment as offered and specified in the Bidding Documents.

In case of non-submission of type test reports with the Bid or if the submitted type test reports are not conforming to the requirements given in Specifications - Technical Provisions and Special Provisions of the Bidding Documents, the Bid shall not be rejected by the Purchaser as non-responsive, subject to the condition that the Bidder undertakes, as under, to perform the type tests specified in Volume – II: Specifications - Technical Provisions at one of the labs listed in "Revised Type Test Policy of NTDC" attached with the Bidding Documents.

Type Test Undertaking

"We, M/s. _____ [Name of the Bidder] undertake to submit type test reports conforming to the Specifications - Technical Provisions and Special Provisions of the Bidding Documents after award of Contract, if so selected. In case the submitted type test reports (with the Bid or after award of Contract) are not conforming to the requirements given in the Specifications - Technical Provisions and Special Provisions of the Bidding Documents, we shall arrange the type tests specified in Section-6 Specifications - Technical Provisions in accordance with the provisions of the Bidding/Contract Documents at no additional cost to the Purchaser and without affecting the stipulated Delivery Period.

Signature & Seal of the Bidder"

1.2 Domestic Preference

- i. In comparison of evaluated bids, Purchaser will grant a margin of preference to goods manufactured in Pakistan. For this purpose, responsive bids shall be classified in one of the following three groups:
 - (a) **Group A:** bids exclusively offering goods manufactured in the country of the borrower if the bidder establishes to the satisfaction of the borrower and ADB that (i) labor, raw material, and component from within the country of the borrower will account for 30 percent or more of the EXW price of the product offered, and (ii) the production facility in which those goods will be manufactured or assembled has been engaged in manufacturing/assembling such goods at least since the time of bid submission.
 - (b) **Group B:** all other bids offering goods manufactured in the country of the borrower.
 - (c) **Group C:** bids offering goods manufactured abroad that have been already imported or that will be directly imported.
- ii. The price quoted for goods in bids of groups A and B shall include all duties and taxes paid or payable on the basic materials or component purchased in the domestic market or imported, but shall exclude the sales and similar taxes on the finished product. The price quoted for goods in bids of group C shall be on CIF or CIP (place of destination), which is exclusive of customs duties and other import taxes already paid or to be paid.
- iii. In the first step, all evaluated bids in each group shall be compared to determine the lowest bid in each group. Such lowest evaluated bids shall be compared with each other and if, as a result of this comparison, a bid from group A or group B is the lowest, it shall be selected for the award.

If as a result of the comparison under paragraph iii above, the lowest evaluated bid is a bid from group C, the lowest evaluated bid from group C shall be further compared with the lowest evaluated bid from group A after adding to the evaluated price of goods offered in the bid from group C, for the purpose of this further comparison only, an amount equal to 15 percent of the CIF bid price. The lowest evaluated bid determined from this last comparison shall be selected.

1.3 Damping Study & Placement Charts

For Lot-VI (Dampers), the contractor shall provide Damping Study and Placement Charts of the offered dampers in the Bid. The contractor shall fill the damper schedules as per Forms DMP – 1, DMP – 2 and DMP – 3 given in Section 4 "Bidding Forms" and submit the same in the Bid. Subsequently, Bid Evaluation shall take into account the Damping Study and Placement Charts to arrive at the most economical offer that will be recommended for award.

1.4 Economic Criteria

1.4.1 Adjustment for Scope

1.4.1.1 Local Handling and Inland Transportation

Costs for inland transportation, insurance, and other incidental costs for delivery of the goods from the EXW premises, or port of entry, or border point to Project Site as defined in Section 6 (Schedule of Supply), shall be quoted in the Price Schedule for Related Services to Be Offered from Outside and Within the Purchaser's Country

provided In Section 4 (Bidding Forms). These costs will be taken into account during bid evaluation. If a Bidder fails to include such costs in its Bid, then these costs will be estimated by the Purchaser on the basis of published tariffs by the rail or road transport agencies, insurance companies, or other appropriate sources, and added to EXW or CIF or CIP price.

1.4.1.2 Minor Omissions or Missing Items

Pursuant to ITB 33.3, the cost of all quantifiable nonmaterial nonconformities or omissions from the contractual and commercial conditions shall be evaluated. The Purchaser will make its own assessment of the cost of any nonmaterial nonconformities and omissions for the purpose of ensuring fair comparison of Bids on the basis of highest price quoted for the same item by the other responsive bidder. If all bidders do not have the price for such nonmaterial nonconformities or omissions, the purchaser shall base its assessment on the purchaser's estimated cost of such item(s).

1.4.2 Adjustment for Deviations from the Terms of Payment

If a bid deviates from the terms of payment/payment conditions as specified in the Section 8: Special Conditions of Contract and if such deviation is considered acceptable to the Purchaser, mark-up earned for any earlier payments involved in the terms outlined in the Bid as compared to those stipulated in the Conditions of Contract shall be calculated at the following mark-up rates:

- for foreign currency component: LIBOR;

- for local currency component: KIBOR;

and shall be added to the Corrected Total Bid Price for comparison purposes only.

1.4.3 Adjustment for Deviations in the Delivery and Completion Schedule

The Goods covered by this bidding process are required to be delivered in accordance with, and completed within, the Delivery and Completion Schedule specified in Section 6 (Schedule of Supply). No credit will be given for earlier completion. Bids offering late contract performance schedules will be accepted but the Bids shall be adjusted in the evaluation by adding to the Bid Price at the rate of 0.05% of the Bid Price (CIF/Ex-works prices of goods) for each day of delay for a maximum period of 30 days. Bids offering delivery schedules beyond 30 days of the date specified in Section 6 (Schedule of Supply), shall be rejected.

1.4.4 Operation and Maintenance (O&M) Costs

NOT APPLICABLE

1.5 Multiple Lots (Contracts)

Goods are grouped in lots. The Purchaser will evaluate and compare Bids on the basis of a lot or a combination of lots, or as a total of lots in order to arrive at the least cost Combination for the Purchaser by taking into account discounts offered by Bidders in case of award of multiple contracts.

If a bidder is determined to be lowest evaluated substantially responsive in more than one lot, the qualification of the Bidder shall be assessed to meet the aggregated qualifying requirements - relating to Contract Experience, Manufacturing Experience, Supply Capacity, Size of Operation and Financial Position – given in Clause 2 (Qualification Criteria) herein above for award of multiple Lots. However, order for multiple lots will be placed only if the
