1. Evaluation Criteria

1.1 Technical Criteria

The Bidder is required to fully comply the tender specification appended herewith.

The Bid will be examined in detail whether the goods offered by the bidder comply with the Technical Specification of the Bidding Documents. It will also be examined in detail whether the bids comply with the Commercial/ Contractual Conditions of the Bidding Documents.

The cost of all quantifiable deviations or deficiencies from the technical requirements as specified in Section 6 (Schedule of Supply) shall be evaluated. The Purchaser will make its own assessment of the cost of these deviations or deficiencies for the purpose of ensuring fair comparison of Bids.

The requisite schedule of technical data as per tender specification shall be duly filled in and the same shall be submitted with the bid. In case of non-submission of the schedule of technical data along with the bid, a post bid clarification may be sought from the bidder to submit the same. Failure to submit the requisite schedule of technical data shall render the bid non-responsive.

In case that the submitted type test reports of the offered equipment do not comply with requirements as per clause 3 of the Technical Specification under Section 6 (Schedule of Supply), the bidder shall provide undertaking stating that the bidder will provide the schedule of type tests (on his own expense) from an accredited testing lab acceptable to the Purchaser as a condition of award of the contract as indicated under ITB 44.2 of the BDS. If bidder does not provide such undertaking during the bid or post-bid clarification, the bidder's bid will be considered non-responsive and hence, rejected.

All Type Test certificates/reports, reference list, etc. shall be in English language.

1.2 Domestic Preference

1. In comparison of evaluated bids, Purchaser will grant a margin of preference to goods manufactured in Pakistan. For this purpose, responsive bids shall be classified in one of the following three groups:
 - (a) Group A: Bids exclusively offering goods manufactured in the country of the Borrower if the bidder establishes to the satisfaction of the Borrower and ADB that
 - i. labor, raw material, and components from within the country of the Borrower will account for 30% or more of the EXW price of the product offered, and
 - ii. the production facility in which those goods will be manufactured or assembled has been engaged in manufacturing or assembling such goods at least since the time of bid submission.
 - (b) Group B: All other bids offering goods manufactured in the country of the Borrower.
 - (c) Group C: Bids offering goods manufactured abroad that have been already imported or that will be directly imported.
2. The price quoted for goods in bids of groups A and B shall include all duties and taxes paid or payable on the basic materials or components purchased in the domestic market or imported, but shall exclude the sales and similar taxes on the finished product. The price quoted for

- goods in bids of group C shall be on CIF, which is exclusive of customs duties and other import taxes already paid or to be paid.
3. In the first step, all evaluated Bids in each group shall be compared to determine the lowest bid in each group. Such lowest evaluated bids shall be compared with each other and if, as a result of this comparison, a bid from group A or group B is the lowest, it shall be selected for the award.
 4. **If as a result of the comparison under paragraph 3 above, the lowest evaluated Bid is a Bid from group C, the lowest evaluated bid from group C shall be further compared with the lowest evaluated Bid from group A after adding to the evaluated price of goods offered in the Bid from group C, for the purpose of this further comparison only, an amount equal to fifteen percent (15%) of the CIF bid price. The lowest evaluated Bid determined from this last comparison shall be selected.**

1.3 Economic Criteria

1.3.1 Adjustment for Scope

1.3.1.1 Local Handling and Inland Transportation

Not Applicable

1.3.1.2 Minor Omissions or Missing Items

Pursuant to ITB 32.3, the cost of all quantifiable nonmaterial nonconformities or omissions from the contractual and commercial conditions shall be evaluated. The Purchaser will make its own assessment of the cost of any nonmaterial nonconformities and omissions for the purpose of ensuring fair comparison of Bids.

1.3.2 Adjustment for Deviations from the Terms of Payment

Deviations from the Terms of Payment as specified in SCC 16.1 are not permitted.

1.3.3 Adjustment for Deviations in the Delivery and Completion Schedule

Bidders are required to base their prices on the Delivery and Completion Schedule specified in Section 6 (Schedule of Supply).

Deviations from the Delivery and Completion Schedule specified in Section 6 (Schedule of Supply) are not permitted.

1.3.4 Adjustment for Capitalization of Losses

For Battery Chargers & Battery Bank, following rates shall be used for the capitalization of losses.

Battery Chargers

US \$ 1.75/- per watt of overall losses at 25% rated direct current.

The capitalized cost of losses shall be added to the CIF/Ex-works price of battery charger to obtain adjudication price.

Battery Bank

The quoted price of different types of batteries shall be multiplied with the following factors for their comparison with Plante Type Batteries (having positive plate of pure lead lamellae with plant formation). The prices considered shall be without sales tax for local manufacturer and CIF price for imported batteries.

Type of Battery	Multiplying Factor
Plante	1
Tubular	1.4
Pasted	1.7

1.3.5 Operation and Maintenance (O&M) Costs

Not Applicable

1.3.6 Spare Parts

The list of spare parts and quantities of substation equipment of each lot is already indicated in Price Schedules of Section 4 (Bidding Forms). Hence, total bid price shall be inclusive of cost of spare parts.

1.3.7 Performance and Productivity of the Goods

Not Applicable.

1.4 Multiple Lots (Contracts)

Goods are grouped in lots. The Purchaser will evaluate and compare Bids on the basis of a lot, or a combination of lots, or as a total of lots to arrive at the least cost combination for the Purchaser by taking into account discounts offered by Bidders in case of award of multiple contracts.

If a Bidder as defined in ITB 4.1 submits successful Bids for multiple lots (lowest evaluated substantially responsive Bids), the evaluation will also include an assessment of the Bidder's capacity to meet the aggregated qualifying requirements relating to:

- Average annual turnover,
- Financial resources,

If a Bidder is manufacturer himself, then he shall meet following additional aggregated requirements:

- Production Capacity
