TECHNICAL EVALUATION REPORT ON IT LABS EQUIPMENT ON QCBS 70:30

The bids/Proposals were invited from firm duly having relevant requirements as per RFP document with an extended closing date of 22nd of February 2024. The detailed evaluation is attached at **Annexure A**. A Pre bid meeting was also held 15th Feb 2024 on attached in **Annex B**, which was circulated to all Bidders including PTCL, in which it was clarified that acceptance and rejection of All in one solution will be decided during evaluation process however PTCL shown interest to participate with change configuration of design of the Project through providing all in one solution product. Therefore, PTCL inquired through their email about their designed product which was against RFP to check its acceptance and rejection email **attached C**. Now keeping in view the procurement principles, the Procurement Committee did not discourage to participate anyone in the bid. Therefore, the following four bidders participated in the bid.

- I. M/s A.N.Q Associates
- II. M/s PTCL Solutions
- III. M/s Bilal & Sons
- IV. M/s Analytical Solutions

2. The work is the upgradation of 50 labs in FDE Secondary schools and Higher secondary Schools in rural ICT boys Labs Islamabad. During the meeting it was decided that the firm who will qualify and awarded technical score of 70% will become further part of financial opening. Committee also verified and cross examined the products as per RFP design specifications published product detail evaluation is **attached at A**. A meeting to Evaluate the bids was held on 29th Feb 2024, under the chairmanship of Sr. Joint Secretary Mr. Syed Junaid Akhlaq and other team members of the committee Procurement specialist, Deputy Director BECS, and IT specialist ASPIRE and Deputy Director FDE representations to discuss and evaluate the proposals notification **attached D**. During the meeting it was decided to get the clarification from the bidders on their experience to supply as IT equipment/Labs establishment in any department at federal and provincial level to consider. The IT equipment work orders placed and attached through different suppliers on IT equipment Laptop/Desktop considered as for IT Labs establishment on the basis of their previous experience in supplying equipment. Based on that further cross verification were sought through emails attached E in all documentation from PTCL and Bilal & Sons. In addition, In this regard, it has been identified during the process PTCL bid is offering All in One solution product which is against the design RFP product of Desktop and Technically Dahua product all in one solution which is not the required product as per RFP as well as it was further cross verified Dahua Technologies principal activity is not manufacturing of the Computers /IT product and are more specialized in cameras video's surveillances Certificate **Attached E**. Therefore, Committee evaluated all bids received and found that the M/s Analytical Solution submitted proposals is not complete and missing 3rd year Tax return and 3rd year audited statement of 2023 therefore it stands non responsiveness as per PPRA rules as well as PTCL Bid is also not in compliance with designed RFP / acceptable/Non responsive due to following technical specifications grounds;

Specifications of RFP DESIGN MODEL	All in One offered by PTCL DESIGN MODEL																																								
<p>Desktop: Desktop computers are required into published RFP as it offer greater flexibility for upgrades and repairs. Components can be easily swapped out or upgraded as needed, and users have more options for customization and expansion.</p>	<p>Upgradeability and Repair:AIO: AIO computers are often less upgradeable compared to desktops. Since the components are integrated into the monitor housing, upgrading specific hardware components such as the CPU or GPU may be more challenging or even impossible.</p>																																								
<p>Desktop towers are often more modular, allowing for easier transportation if needed. Components such as the tower, monitor, and peripherals can be disconnected and moved separately.</p>	<p>AIO: AIO computers are generally less portable than desktops. While they are compact and can be moved easily within a home or office environment, they are not as easily transportable as traditional desktop towers.</p>																																								
<p>Furniture Specification for chairs and tables given for Lab designed Desktop is as per standard Screen size 19.5"</p>	<p>While for All in One solution Screen Size is larger than Conventional LEDs desktop sizes will change specifications of furniture mentioned into the RFP published bid</p>

Project	UPGRADATION OF 50 COMPUTER/IT LABS IN FDE SCHOOLS	
Evaluation	Technical Criteria	
Firm	M/s PTCL Group	
A) Mandatory Eligibility Requirements		
Description	Attached (Yes/No/N/A)	Remarks/ Reference
1 The Bidder applying must have a valid registration with the Pakistan Government Entity . (Provide copy of valid registration)	Yes	
2 The Bidder must be registered with Income Tax Department / FBR. (Provide copy of Income Tax/ FBR registration and tax returns for last three years)	Yes	The comitee decided not to accept the model offered by the PTCL as it is against the project RFP design model.
3 The Bidder must be registered with Sales Tax Department. (Provide copy of registration certificate)	Yes	
4 The Bidder must provide financial statement audited by chartered accountant for the last 3 years.	Yes	
5 The Bidder is not black listed by PEC, PPRA, SPPRA or any Government, semi government or autonomous body. (Provide affidavit on Rs. 100 stamp paper attested by Notary Public)	Yes

B) General Eligibility		
Description	Attached (Yes/No/N/A)	Remarks/ Reference
1 Bidder must have PO(s)/Contract Agreement(s) of relevant experience of establishing minimum 10 computer labs under with minimum total amount of Rs.250 million in last 5 years.	No	
2 Bidder(s) must have at-least 10 years of experience and must provide copies of supply orders / contracts to establish the required experience.	No	
3 The bidder must undertake on legal valid and attested stamp paper worth 100 that the firm is not blacklisted by any of Provincial or Federal Government Department, Agency, Organization or autonomous body or private Sector Organization anywhere in Pakistan	No	
4 Bidder(s) must submit Manufacturer Authorization Letter against designated RFP for Computers, Networking Equipment, CCTV Equipment and LED TVs.	No	MAL is crossed verified; PTCL is offering DHUWA product which is cross verified with the FBR (certificate attached) in which this product principal activity is not manufacturing of computers or associated IT products; therefore, they are also not registered with SECP as a computer manufacturer of product. So DHUWA is legally verified which is only speialized for video surveillance providers, cameras as they are not the principal/manufacturereer. Therefore, risk factor is involved to put huge investment into any such kind of product which is cannot be upgraded in case of maintenance/upgradation of IT product as market solution oriented product is not available. So, MAL product all in one solution instead of desktop for IT lab is purley against the design of the project RFP. Therefore, the PTCL bid stands non-responsive. comparative sheet as refermced to RFP design specifications for IT equipment is attached. (Annex-A)

While they are compact and can be moved easily within a home or office environment, they are not as easily transportable as traditional desktop towers. Desktop: Desktop towers are often more modular, allowing for easier transportation if needed. Components such as the tower, monitor, and peripherals can be disconnected and moved separately. Upgradeability and Repair: AIO: AIO computers are often less upgradeable compared to desktops. Since the components are integrated into the monitor housing, upgrading specific hardware components such as the CPU or GPU may be more challenging or even impossible. Desktop: Desktop computers offer greater flexibility for upgrades and repairs. Components can be easily swapped out or upgraded as needed, and users have more options for customization and expansion.</p>
