D.	<u>FINANCIAL SOUNDNESS</u> (Max. marks-20) (Min marks 14)		Min. marks	Max. marks		
	<u>Turnover.</u> 250 Million and above. 200 Million and less than 250 Million. 150 Million and less than 200 Million. Below 150 Million.	20 marks 16 marks 14 marks 00 marks	14 marks	20 marks		
Total			14 Marks	20 Marks		
Grand Total (a+b+c+d)			70 Marks	100 Marks		

NOTE

1. Firm should arrange 4-days training of 4 nominated officer / officials of KPT at the manufacturing / assembling premises of the equipment to be supplied. Said training shall cover operation, routine maintenance, fault diagnosis, defect rectification etc pertaining to the main equipment to be supplied.

2. The selection of firm would be made via “**Most Advantageous Bid**” with **70% weightage** to be given to **Technical Criteria** and **30% weightage** to be given to **Financial Bid**.

Formula for evaluation:

- **Technical Score = $\frac{\text{Bidder's Technical Score}}{\text{Total Technical Score}} \times 70$**
- **Financial Score = $\frac{\text{Lowest Bid Price}}{\text{Bidder's Quoted Price}} \times 30$**
- **Total Score = Technical Score + Financial Score**

KARCHI PORT TRUST
MECH & ELECT ENGG DEPARTMENT

SPECIFICATION / SCOPE OF WORK

SUPPLY, INSTALLATION AND COMMISSIONING OF 2-NOS. GLASS LIFT AT OLD BUILDING OF KPT HEAD OFFICE.

The work required to be carried out comprises the supply, installation and commissioning of New Glass Lift / Elevator at KPT Head Office. The work includes cutting chiseling. Grouting, making bores, scaffolding, machinery foundations, supply and installation of all supporting steel work, and all related works necessary for a complete job. The shaft pit and shaft entrances for landing doors shall be made by contractor for which the contractor shall supply detailed drawing. All civil work related to the installation of the elevator is included in the scope of work. The elevator shall be branded of USA, EU, Japan (Mitsubishi, Otis, Karryat, Gaint, Marrayt & Scott, Hitachi, and KONE or equivalent) .

STANDARD:

All works shall be carried out in accordance with the international standard (BS/ISO Certified) pertains to lifts/elevator and the Electricity rules applicable in Pakistan and the I. E. C. Regulations for Electric Equipment of Buildings.

All materials, plant and equipment to be incorporated in the works shall be tested in accordance with the relevant British Standard Specification or approved equivalent specification.

SITE CONDITION:

The elevator is to be installed in the KPT Head Office. All equipments of the offered lift shall be suitable for operation in a tropical climate and exposed to a severely corrosive dust-laden and humid atmosphere. The ambient temperatures range from 5 °C to 50 °C in the sunshade and relative humidity up to 90%.

MRL Passenger Elevator Tec. Specification

Quantity	2 UNITS
Standard	EN-81/82
Certificate	CE, GOST, EAC, SONCAP, ISO9001, ISO 14001, OHSAS 18001, ISO 1440/40, ISO 1425, ISO 25745-1&2
Design Standard : GB7588-2003 and suitable for international standard EN81/82 /	
Product Name	MRL (Machine Room Less) Passenger Elevator
Make	Europe, USA, Japan
Speed	1.0m/s
Rated load	1000 kg
Floor / stop / door	G / 1 / 2
Main floor	G
Stops & opening	3 stops / 3 opening
Travel height	14 meters approx
Service floor	2 (front door)
Size of car	1500 mm (W) * 1250 mm (D) * 2300 mm (H)
Door opening size	800 (W) * 2100 mm (H) (Glass Door)
Type of door opening	Central opening
Motor type	PM Synchronized Machine
Drive system	Variable Voltage, Variable Frequency, Gearless with permanent magnet Synchronous Motor with two independent brake system (240 Starts per Hour)

Anti fire function	Yes
Control mode	Simplex control
Cable requirement	380V, 3-Phase 50 Hz.
Shaft construction	Metal or MS structure with tempered heat prove glass 12mm
Buffers	Hydraulic buffer
Safety Gear	Progressive
Power supply	3 phase, 400 volts, 50 hertz
Lighting power supply	1 phase, 220 volts, 50 hertz
Shaft Size	As per required at site
Pit Depth	As per required at site
Head Room	As per required at site
Hoist Way Requirement :	
Hoist way internal size	2400 mm (D) x 2100 mm (W)
Machine room	None (Machine Room Less Design)
Machine room height	Size and Drawing to be provided by the contractor
Elevator Car Specifications :	
Car enclosure	Hairline Stainless steel (GS04) Black
Ceiling design	Stainless steel mirror frame LED lighting (4601 L) Black
Car internal dimensions	1600 mm (W) x 1400 mm (D) x 2400 mm (H)
Car door opening	900 mm (W) x 2100 mm (H)
Lighting	Direct / indirect LED lighting
Wall finish	Glass wall in hairline stainless steel frame (both sides and rear) Heat proof tempered glass 12 mm
Car door finish	Glass door in hairline stainless steel frame
Handrail	Hairline stainless steel handrail (4900A) on three sides
Flooring	PVC tiles (4900 MA-0201) / Marble Flooring
Ventilation	Air Conditioner
COP for handicap / rear wall	Handrail with opening button / micropush
Jamb	Narrow Jamb, qty 3 sets
Entrance Specifications :	
Entrance Design	Black hairline stainless steel
Door opening size	900 mm (W) x 2100 mm (H)
Entrance door frame	Hairline stainless steel, white jambs at all floors
Car door finish	No jambs glass door
Entrance door	No frame glass door in hairline stainless steel frame
Entrance sill	Extruded hard aluminum
Car and Entrance Signals :	
Car opening panel	Black hairline stainless steel (COP02)
Car position indicators	LCD7 TFT type display multi media video type display 10" inch
Push buttons	Stainless Steel (BR34CB)
Intercom	5 way intercom system
Hall call button panel	Black hairline stainless steel micro push glass panel with square shape
Position indicators	Black TFT LCD type white characters

Safety and Additional Features :

- Attendant control
- Independent service
- Emergency operation and fireman switch
- Emergency lighting & alarm unit
- Suitability for 40 C ambient temperature
- Automatic Rescue Operation (Emergency Rescue Device with backup)
- Manual brake release lever
- Direct leveling
- Load compensating
- Over / under voltage protection
- Bi-directional over speed protection
- Reversal protection
- Travel over time protection
- Final terminal protection
- Emergency illumination in the car
- Arrival chime
- CCTV camera interface with cat 6 wire
- 2-hour fire rated landing doors
- Voice announces with music

MAINTENANCE AND OPERATING INSTRUCTIONS:

- The firm should provide free maintenance and call back services during the defect liability period of one (1) year from the date of completion of installation and commissioning. This includes conducting corrective and periodic maintenance as per the O&M schedule. Contractor should provide three sets of detailed Operation & Maintenance Manual and two set of Product Specs Catalog for the equipment, in English Language bounded in hard folder, before the supply and installation of equipment for study by KPT Engineers. two sets of cable connection diagrams and schematic diagrams for the complete works showing actual as-built condition, shall be prepared by the contractor and provided for study and record prior to commissioning of the systems. The contractor, if directed by KPT Engineer, shall incorporate any modifications/- corrections, in the drawings.

ERECTION, TESTING AND COMMISSIONING:

- The Tendered shall quote for complete provisioning, erection, testing and commissioning all items for the equipment as detailed above including all civil works related to be installation. The price quoted should include supply of all erection materials including scaffolding, tackle, tools, etc.

SPECIAL TERMS & CONDITIONS

1. All the firms participating in bidding for this work must visit the work site for assessing the actual conditions, locations, spaces, logistics, including civil works required before submitting their bids.

SCOPE OF WORK / BILL OF QUANTITY

SUPPLY, INSTALLATION AND COMMISSIONING OF 02-NOS. GLASS LIFT AT OLD BUILDING OF KPT HEAD OFFICE.

S. NO	DESCRIPTIONS OF WORK	QTY	UNIT RATE	TOTAL AMOUNT
1	Dismantling, removing the existing old lift / elevator along with all equipment and accessories and handed over the O&M section. A complete job in all respect as required at site.	01 Job	Rs	Rs
2.	a). Supply of Glass Lift / Elevator complete with all equipment and accessories, including , Electrical & Mechanical work, required for commissioning & smooth safe operation of lift as per site requirement as approved by Engineer Incharge. b). The bidders are required to submit drawing of all proposed, Mechanical & Electrical work, with tender. c). Work includes all such works which are consider necessary for completion of job as per KPT Specification, Scope of Work and terms & conditions for Glass Lift at KPT Head Office.	02 Each	Rs	Rs
3	Installation of item No. 2. A complete job in all respect as required at site.	02 Job	Rs	Rs
4	The supply of materials for the glass lift shaft includes high strength structural MS steel for the framework, comprising H-Beams, I-Beams, angles and channels, all hot dip galvanized or epoxy coated for corrosion resistance, Glass cladding will be provided in laminated or tempered glass panels, meeting safety standards and designed for aesthetic integration with the lift shaft, including necessary aluminum framing and weatherproof seals. cement construction materials will include high-grade cement for the concrete foundation and shaft wall, along with fine aggregates, sand and reinforcement bars, ensuring structural integrity and compliance with building codes.	01 Job	Rs	Rs
5	Installation of item No. 4. A complete job in all respect as required at site.	01 Job	Rs	Rs
6	Providing of electric cable 4 core x 35mm ² PVCI/PVCS, circular copper conductor, un-armored, manufactured under PSQCA certified companies in given RCC pipes G. I. Pipe / UPVC Pipe and cable pits or direct burred and making necessary joints. A complete job in all respect as required at site.	100 Meter	Rs	Rs

7	Installation of item No. 6. A complete job in all respect as required at site.	01 Job	Rs	Rs
8	Providing of UPVC pipe 4 inch dia with all accessories like elbow, bend ,joints etc. under PSQCA certified companies, including accessories like socket, bend, etc. up to the metallic board. A complete job in all respect as required at site.	100 Meter	Rs	Rs
9	Installation of item No. 8. A complete job in all respect as required at site.	01 Job	Rs	Rs
10	Provide earthing copper electrode 19mm dia, 3-meters long buried in the ground as per Electricity Rules; earth rod to be connected with 2 x 8 SWG bare copper wire run in the 13mm dia G.I Pipe manufactured	02 Each	Rs	Rs
11	Installation of item No. 10. A complete job in all respect as required at site.	02 Job	Rs	Rs
12	Excavating of 600mm wide trench in all kind of hard plinth surface road etc, with heavy duty jack hammer or mechanical digger, up to 900mm depth; including supplying & laying sand cushion of 150mm before laying of RCC pipe; including supplying, laying and properly jointing 150mm dia RCC pipe in trench. RCC pipe to be manufactured by approved / reputable manufacture back filling the trench, compacting & restoring the finished surface & dressing the surface with lean mixture of small gravel & bitumen; assuring proper setting, or carpeting same as good as it was; disposal of the debris, soil as directed by Engineer. A complete job in all respect as required at site.	40 Meter	Rs	Rs
13	Providing Distribution board comprising as under. 1. M.C.C.B, 100 ATP, 500-V = 01 No. 2. M.C.C.B, 60 ATP, 500-V = 02 Nos. 3. M.C.C.B, 30 ATP, 500-V = 02 Nos. 4. M.C.B, 20 ASP, 254/500-V = 04 Nos. 5. M.C.B, 10 ASP, 254/500-V = 04 Nos. reputable make in accordance with IEC 997/2 6. Volt meter (0-500-Volts) 95mm x 95mm, with selection which reputable make = 01 No. 7. Amp meter (0.100A) 95mm x 95mm reputable make = 01No. 8. Neon indication Lamp complete = 03 Nos. Including providing the neutral strip. Board to be consist on sheet steel 14 SWG, size 450x 300 mm, smooth Finished, hinges type, Lockable concealed or surface type, cement Grey / White colour powder coated to be approved by Engineer. A complete job in all respect as required at site.	02 Each	Rs	Rs

14	Installation of item No. 13. A complete job in all respect as required at site.	01 Job	Rs	Rs
15	Construction of heavy duty RCC cable draw pit inner size as required at site along with any utility pipe from ground level, comprising 1:2:4 RCC wall, 200mm with 1:3 cement concrete 13mm thick plaster, including RCC pit cover heavy duty cast iron size 450mm x 450mm outer size of cable pit cover must be level with ground and fixed in RCC draw pit subject item to be approved by Engineer. A complete job in all respect as required at site.	02 Each	Rs	Rs

“INSTRUCTION FOR TENDER”

- 1. The Tenderer should examine carefully the General Conditions of Contract**, the Specification and the drawing supplied herewith. He should visit and inspect the Site on his own responsibility and at his own expense to obtain all the information which may be necessary for the purpose of making a Tender.
- 2. The Tenderer set down the rates and prices** against the items in the Bill of Quantities are to be the full inclusive value of the finished work described there under and shall cover profit and all obligations of every kind which under the Contract are to be borne by the Contractor.
- 3. The Quantities set out in the Bill of Quantities** are estimated only and their accuracy or inaccuracy shall in no way effect the validity of the Tender or of any Contract based thereon. The total amount of the various item set out in the Bill of Quantities at the rates or prices inserted by the Tenderer shall be stated in each case, but this figure is required solely for the purpose of facilitating the comparison of the various Tenders received and shall not be deemed to be the actual sum which is to be paid to the Contractor for the execution of the work. The actual sum to be paid to the Contractor whose Tender is accepted will be determine by measuring the work, actually done in accordance with the Contract and valuing it the rates or prices inserted by the Contractor in the Bill of Quantities.
- 4. The Contractor whose Tender accepted will be required to enter into an Agreement Form** of which (subject to any necessary adaptations) will be as set out in the Form appended to the General conditions of the Contract.
- 5. The Contractor whose Tender accepted will also be required to furnish as Security deposit** in cash, or in approved public Rupee security or in approve Bankers guaranteed Bond valid till the successful completion of the Contract, for the sum equivalent to **Five percent (5%)** of the Contractor price for the due performance of the Contract, (see **Clause-9 of the General Conditions of Contract**).
- 6. Tenders must be made on the separate Form** supplied herewith must be accompanied by two copies of the Bill of quantities fully price, monies out and totaled in ink and sign by Tenderer. Tender must be reached to the Chief Mechanical & Electrical Engineer Karachi Port Trust, not later than the time stated in the Tender Notice.
- 7. No unauthorized alteration may be made in the Form of Tender** or the accompanying Documents and if alteration is made or if the Bill of Quantities is not properly filled in, or if these instructions are not fully complied with the Tender may be rejected.
- 8. Tenderer must be produced evidence with their Tender**, that they had experience and are fully capable carrying out the work of this class and magnitude and must give full details of the plant they propose to use on the works in **Proforma “A”**.
- 9. The Board of Trustees of the Karachi Port Trust reserves to themselves the right** to reject any Tender without any reason or to accept any Tender in whole or in part and do not hind themselves to accept the lowest or any Tender.
- 10. Should there be any doubt or obscurity as to the meaning of any Tender Documents** or if any further information is required, the Tenderer must address his enquiry in writing (in duplicate) to the Chief Mechanical & Electrical Engineer Karachi Port Trust, not later than two weeks before the date fixed for the delivery of Tender.
- 11. Unless otherwise agreed all payments to be made** to the Contract, under the Contract will be made locally in Pakistan Rupee Currency.

12. Each Tender must be accompanied by the requisite amount of Earnest money deposit either in Pay Order / Demand Draft / Bank Guarantee of a recognized Pakistan or a foreign bank with presence in Pakistan to the **Chief Accounts Officer Karachi Port Trust** (**Please Note: UBL Bank Guarantees are not acceptable**). **Bankers Guaranteed Bond** valid for an indefinite period or a pay order drawn in favor of the **Chief Accounts Officer Karachi Port Trust**. The earnest money will be refunded to the unsuccessful Tenderer to after the Tender are decided. It will be optional with the successful Tenderers to re-appropriate the Earnest Money or part of the Earnest Money for the payment or part payment towards the Security deposit. (**See Clause-9 of the General Conditions of Contract**).

13. The Tender must be sent in a sealed cover envelope required as described in the Tender Notice and must be reached to the Chief Mechanical & Electrical Engineer Karachi Port Trust, before the due time and date fixed for opening of the Tender.

14. The Contractors have to quote items rate as per schedule of quantities attached with Tender. Any insertion of percentage whether below or above on the rates after filling of the rates shall make the Tender invalid and the Tender will not be considered.

Design Standard : GB7588-2003 and suitable for international standard EN81/82 /	
Product Name	MRL (Machine Room Less) Passenger Elevator
Make	Europe, USA, Japan
Speed	1.0m/s
Rated load	1000 kg
Floor / stop / door	G / 1 / 2
Main floor	G
Stops & opening	3 stops / 3 opening
Travel height	14 meters approx
Service floor	2 (front door)
Size of car	1500 mm (W) * 1250 mm (D) * 2300 mm (H)
Door opening size	800 (W) * 2100 mm (H) (Glass Door)
Type of door opening	Central opening
Motor type	PM Synchronized Machine
Drive system	Variable Voltage, Variable Frequency, Gearless with permanent magnet Synchronous Motor with two independent brake system (240 Starts per Hour)

Anti fire function	Yes
Control mode	Simplex control
Cable requirement	380V, 3-Phase 50 Hz.
Shaft construction	Metal or MS structure with tempered heat prove glass 12mm
Buffers	Hydraulic buffer
Safety Gear	Progressive
Power supply	3 phase, 400 volts, 50 hertz
Lighting power supply	1 phase, 220 volts, 50 hertz
Shaft Size	As per required at site
Pit Depth	As per required at site
Head Room	As per required at site
Hoist Way Requirement :	
Hoist way internal size	2400 mm (D) x 2100 mm (W)
Machine room	None (Machine Room Less Design)
Machine room height	Size and Drawing to be provided by the contractor
Elevator Car Specifications :	
Car enclosure	Hairline Stainless steel (GS04) Black
Ceiling design	Stainless steel mirror frame LED lighting (4601 L) Black
Car internal dimensions	1600 mm (W) x 1400 mm (D) x 2400 mm (H)
Car door opening	900 mm (W) x 2100 mm (H)
Lighting	Direct / indirect LED lighting
Wall finish	Glass wall in hairline stainless steel frame (both sides and rear) Heat proof tempered glass 12 mm
Car door finish	Glass door in hairline stainless steel frame
Handrail	Hairline stainless steel handrail (4900A) on three sides
Flooring	PVC tiles (4900 MA-0201) / Marble Flooring
Ventilation	Air Conditioner
COP for handicap / rear wall	Handrail with opening button / micropush
Jamb	Narrow Jamb, qty 3 sets
Entrance Specifications :	
Entrance Design	Black hairline stainless steel
Door opening size	900 mm (W) x 2100 mm (H)
Entrance door frame	Hairline stainless steel, white jambs at all floors
Car door finish	No jambs glass door
Entrance door	No frame glass door in hairline stainless steel frame
Entrance sill	Extruded hard aluminum
Car and Entrance Signals :	
Car opening panel	Black hairline stainless steel (COP02)
Car position indicators	LCD7 TFT type display multi media video type display 10" inch
Push buttons	Stainless Steel (BR34CB)
Intercom	5 way intercom system
Hall call button panel	Black hairline stainless steel micro push glass panel with square shape
Position indicators	Black TFT LCD type white characters

Safety and Additional Features :

- Attendant control
- Independent service
- Emergency operation and fireman switch
- Emergency lighting & alarm unit
- Suitability for 40 C ambient temperature
- Automatic Rescue Operation (Emergency Rescue Device with backup)
- Manual brake release lever
- Direct leveling
- Load compensating
- Over / under voltage protection
- Bi-directional over speed protection
- Reversal protection
- Travel over time protection
- Final terminal protection
- Emergency illumination in the car
- Arrival chime
- CCTV camera interface with cat 6 wire
- 2-hour fire rated landing doors
- Voice announces with music

General Conditions of Contract

DEFINITIONS AND INTERPRETATION

1.(1) In the Contract (as hereinafter defined) the following words and expression shall have the meanings hereby assigned to them except where the context otherwise requires:-

- (a) **“Board”** means the Board of Trustees of the Port of Karachi, Pakistan, and includes the Board’s representatives of successors.
- (b) **“Contractors”** means the person or person firms or company whose Tender (as hereinafter defined) has been accepted by the Board and includes the Contractor’s personal representative successors and permitted assigns.
- (c) **“Engineer”** means the Chief Mechanical and Electrical Engineer of the Karachi Port Trust or other Engineer appointed from time to time by the Board.
- (d) **“Representative of the Engineer”** means any Engineer Assistant Engineer and any other duly authorized Agents of Agents appointed from time to time by the Board of the Engineer to perform the duties set forth in **Clause-2** hereof.
- (e) **“Works”** means the works to be executed in accordance with the Contract.
- (f) **“Contracts”** means the conditions of Contract, Specification, Drawings, priced Bill of Quantities, Schedule of Rates and prices (if any), Tender and the Contract Agreement.
- (g) **“Contract Price”** means the sum named in the Tender subject to such additions there to or deductions there from as may be made under the provisions hereinafter contained.
- (h) **“Constructional Plant”** means all appliances things of whatsoever nature required in or about the execution completion or maintenance of the works or Temporary works (as hereinafter defined) but does not include materials or other things, intended to from or forming part of the permanent work.
- (i) **“Temporary works”** means all temporary works if every kind required in or about the execution completion or maintenance of the works.
- (j) **“Drawing”** means the drawing referred to in the specification and any modifications of such drawings approved in writing by the Engineer and such other drawing as may from time to time be furnished or approved in writing by the Engineer.
- (k) **“Site”** the lands and other places on, under in or through which the works are to be executed or carried out and any other lands or places provided by the Board for the purpose of the Contract.
- (l) **“Approved”** means approved in writing including subsequent written confirmation of previous verbal approval and “approval” means approved in writing including as aforesaid.
- (m) **“Tender”** means the offer tendered by the Contractor for the works governed by the Contract.

(2) Words importing the singular only also include the Plural and vice versa where the contents requires.

(3) The marginal headings or note in these General Condition shall not be deemed to be part thereof or be taken into consideration in the interoperation or construction thereof or of the Contract.

Singular and Plural

Marginal Headings or Notes

REPRESENTATIVES OF THE ENGINEER

Duties and Power of Representative of the Engineer.

2. The duties of the Representative of the Engineer are to watch and supervise the works and to test and examine any material to be used or workmanship employed in connection with the works. He shall have no authority to relieve the Contractor of any of his duties or obligations under the Contract nor except as expressly provided hereunder or else where in the Contract, to order any work involving delay or any extra payment by the Board nor to make any variation of or in the Works.

The Engineer may from time to time in writing delegate to the Representative of the Engineer any of the powers and authorities vested in the Engineer and shall furnish to the Contractor, a copy of all such written delegation of powers and authorities. Any written instructions or approval given by the Representative of the Engineer to the Contractor within the terms of such delegation (but not otherwise) shall bind the Contractor and the Board though it had been given by the Engineer, provided always as follows :-

- (a) Failure of the Representative of the Engineer to disapprove any work of material shall not prejudice the power of the Engineer there after to disapprove such work or materials and to order the pulling down removal or breaking up thereof.
- (b) If the Contractor shall be dissatisfied by reason of any decision of the Representative of the Engineer he shall be entitled to refer the matter to the Engineer who shall there upon confirm reverse or vary such decision.

ASSIGNMENT AND SUB- LETTING

Assignment and sub-letting

3. The Contractor shall not assign or Sub-let the Contract or any part thereof or any benefit or interest or interest therein or there under without the written consent of the Board.

EXTENT OF CONTRACT

Extent Of Contracts

4. The Contract comprises the construction, completion and maintenance of the works and except in so far as the Contract otherwise provides provision of all labour materials. Constructional Plant. Temporary works as every thing whether of temporary or permanent nature required in and for such construction completion and maintenance so far as the necessity for providing the same is specified in or reasonably to be inferred from the Contract.

CONTRACT DOCUMENTS

Documents manually Explanatory Drawings

5. The several documents forming the Contract are to be taken as mutually explanatory of one another and in case of ambiguities or discrepancies the same shall be explained and adjusted by the Engineer whose decision in this respect shall be final.

6. **Three (3) copies** of the approved drawings shall be furnished to the Contractor free of cost. The Contractor shall provide and make at his own expense any further copies required by him. At the completion of the Contract the Contractor shall return to the Engineer all drawings provided under the Contract.

One Copy of Drawings to be kept on Site

One copy of drawings furnished to the Contractor as aforesaid shall be kept by the Contractor on the Site and the same shall at all reasonable time be available for inspection and use by the Engineer and the representative of the Engineer.

Further Drawings and Instructions

7. The Engineer shall have full power and authority to supply to the Contractor from time to time during the progress of the works such further drawings and instructions as shall be necessary for the purpose of the proper and adequate execution and maintenance of the works and the Contractor shall carry out and bound by the same.

GENERAL OBLIGATIONS

Contract Agreement

8. The Contractor shall within **Fourteen (14) days** after written notice of acceptance of the Tender has been posted to the Contractor enter into and execute a Contract agreement, (to be prepared at the cost of the Contractor) in the form annexed, with such modifications as may be necessary.

9. Unless otherwise agreed between the Board and the Contractor the Contractor shall within **Fourteen(14) days** after written notice of acceptance of the Tender has been posted to the Contractor and before the Contract agreement is entered into and executed, furnish to the Board a security for the due fulfillment of the Contract in cash with the **Chief Accounts Officer Karachi Port Trust** or the equivalent in approved Public Rupee Securities or Approved Banker's Guaranteed Bond valid till the successful completion of Contract endorsed in the favor of the chief Accounts officer Karachi Port Trust amounting to a sum equal to **Five percent 5%** of the Contract price. If the Security deposit as aforesaid is made in cash it shall be optional with the Contractor to make the full deposit before entering into and executing the agreement or to deposit **Fifty percent 50%** of the amount due at the time and the balance to be made up by deduction of **Five percent 5 %** of the amount payable to the Contractor in each on – account bill or certificate.

Security Deposit

In the event of the Contractor failing to execute a formal Contract or to make a Security Deposit therefore in the manner aforesaid and in the period specified, the Board is entitled appropriate any earnest money or initial deposit made by the Contractor with his Tender without prejudice to their right to claim any further loss or damage which may result to them by reason of the aforesaid defaults of the Contractor as if a Contract is actually executed for purpose of such claim.

Contractor's Failure to Furnish Security Deposit

10. The Contractor shall inspect and examine the Site and its surroundings and shall satisfy himself before submitting the Tender as to the nature of ground and sub - soil, the form and nature of the Site the quantities and nature of the work and materials necessary for the completion of the works and the means of access to the Site of the accommodation he may requires and in general shall himself obtain all necessary information as to risk contingencies and other circumstances which may influence or affect his Tender.

Inspection of Site

11. The Contractor shall be deemed to have satisfied himself before tendering as to correctness and sufficiency of his Tender for the Works and of the rates and prices staged in the priced Bill of quantities and the Schedule of rates (if any) which rates and prices shall except in so far otherwise provided in the Contract cover all his obligations under the Contract and all matters and things necessary for the proper completion and maintenance of the Works.

Sufficiency of Tender

12. The Contractor shall execute, complete and maintain the works in strict accordance with the Contract to the satisfaction of the Engineer and shall comply with the adhere strictly to the Engineer's Instruction and directions on any matter (whether mentioned in the Contract or not) touching or connecting the work. The Contractor shall take instruction and direction only from the Engineer or (subject to the Limitations referred to in **Clause 2** hereof) from the Representative of the Engineer.

Work to be to Satisfaction of Engineer.

13. As soon as practicable after the acceptance of his Tender the Contractor shall if required submit to the Engineer for his approval a Programme showing the order of procedure and method in which he proposes to carry out the Works and shall whenever required by the Engineer or Representative of the Engineer furnish for his information particulars in writing of the Contractor's arrangements for the carrying out of the Works and of the Constructional Plant and Temporary Works which the Contractor intends to supply use or construct as the case the case may be. The submission to and approval by the Engineer or the Representative of the Engineer of such Programme or the furnishing of such particulars shall not relieve the Contractor of any of his duties or responsibilities under the Contract.

Programme to be furnished

14. The Contractor shall give or provide all necessary Superintendence during the execution of the Works and as long thereafter as the Engineer may consider necessary for the proper fulfilling of the Contractor obligations under the Contract the Contractor or a competent and authorized agent or representative approved of in writing by the Engineer (which approval may at any time be withdrawn) is to be constantly on the Works and shall give his whole time to the Superintendence of the same. If such approval shall be withdrawn by the Engineer, the Contractor shall as soon as is practicable (having regard to the requirements of replacing him as hereafter mentioned) after receiving written notice of

Contractor's Superintendence

such withdrawal removes the agent from the Site and shall not thereafter employ him again on the Site in any capacity and shall replace him by another agent approved by the Engineer. Such authorized agent representative shall receive on behalf of the Contractor and directions instructions from the Engineer or (subject to the Limitations of **Clause 2** hereof) Representative of the Engineer.

**Contractor's
Employees**

15. (1) The Contractor shall provide and employ on the Site in connection with the execution and maintenance of the works :-

(a) Only such technical assistants are as skilled and experienced in their respective callings and such sub-agents foremen and leading hands as are competent to give proper supervision to the work they are required to supervise.

(b) Such skilled semi- skilled and unskilled labour as is necessary for the proper and timely execution and maintenance of the Works.

(2) The Engineer shall be at liberty to object to and require the Contractor to remove forthwith from the work any person employed by the Contractor in or about the execution or maintenance of the Work who in the option of the Engineer misconducts himself or is incompetent or negligent in the proper performance of his duties or whose employment is otherwise considered by the Engineer to be undesirable and such person shall not be again employed upon the works without the written permission of the Engineer. Any person so removed from the Works shall be replaced without delay by a competent substitute approved by the Engineer.

(3) The Contractor shall if required by the Engineer deliver to the Engineer or the Representative of the Engineer returns in such form and at such intervals as the Engineer may prescribe showing in detail the supervisory staff and the number of the several classes of labour from time to time employed by the Contractor on the Site.

Setting Out

16. The Contractor shall be responsible for the true and proper setting out of the work and for the correctness of the position levels dimensions and alignment of all part of the Works and for the provision of all necessary instruments appliance and labour in connection therewith. If at any time during the progress of the Works any error shall appear or arise in the position levels dimensions or alignments of any part of the works, the Contractor on being required to do so by the Engineer or the Representative of the Engineer shall at his own expense rectify such error to the satisfaction of the Engineer or the Representative of the Engineer. The checking of any setting out of any line or level by the Engineer or the Representative of the Engineer shall not in any way relieve the Contractor of his responsibility for the correctness thereof and the Contractor shall carefully protect and preserve all bench-marks, Site- rails pegs and other things used in setting out the Works.

**Watching and
Lighting**

17. The Contractor shall in connection with the Works provide and maintain at his own cost all lights, guards fencing and watching when and where necessary or required by the Engineer or the Representative of the Engineer or by and duly constituted authority for the protection of the Works or for the safety and convenience of the public or others.

Care of Works

18. (a) From the commencement to the completion of the Works the Contractor shall take full responsibility for the care thereof and of all Temporary works and in case any damage loss or injury shall happen to the work or to any part thereof or to any Temporary Works from any cause whatsoever (save and except the excepted risks as defined in **sub-Clause (2)** of this **Clause**) shall at his own cost repair and make good the same so that at completion the works shall be in good order and condition and in conformity in every respect with the requirements of the Contract and the Engineer's instructions. The Contractor shall also be liable for any damage to the Works occasioned by him in the course of any operations carried out by him for the purpose of complying with his obligations under **Clause 4** hereof.

Expected Risks

(b) The "**expected risks**" are war, hostilities(whether war be declared or not) Invasion, act of foreign enemies , rebellion, revolution, Insurrection or military usurped power, civil war or (otherwise than among the Contractor 's own Employees) riot, commotion or disorders or the use or occupation by the Board of any portion of the Works

or disorders or the use or occupation by the Board of any portion of the Works in respect of which a Certificate of Completion has been issued or any such operation of the forces of nature as reasonable foresight and ability on the part of the Contractor could not foresee or reasonably provide against (all of which are herein collectively referred to as “the expected risks.”)

19. The Contractor shall (expect if and so far as the Specification Provides otherwise) indemnify and keep indemnified the Board against all losses and claims for injuries or damage to any persons or any property whatsoever (other than surface or other damage to land being or crops being on the Site suffered by tenants or occupiers) which may arise out of or in consequences of the construction and maintenance of the works and against all claims demands proceeding damage, costs charges and expenses whatsoever in respect of or in relation thereto.

Damage to Persons and Property

20. The Board shall not be liable for or in respect of any damages or compensation payable at law in respect or in consequence of any accident or injury to any Workman or other person in the employment of the Contractor or any sub-contractor and the Contractor shall indemnify and keep indemnified the Board against all such damages compensation and against claims demands proceeding costs charges and expenses whatsoever in respect thereof or in relation thereto.

Accident or Injury to workman

21. Contractor shall give all notices and pay all fees required to be given or paid by any National or state statute Ordinance or other Law or any Regulation or By- law of any local or other duly constituted authority in relation to the execution of the Works or of any Temporary Works and by the rules and regulations of all public bodies and companies whose property or right are affected or may be affected in any way by the Works or any Temporary Works.

Giving Of Notices and Payment Of Fees

The Contractor shall confirm in all respects with the provisions of any such statute Ordinance or Law as aforesaid and the regulation or By-Law of any Local or other duly constituted authority which may be applicable to the Works or to any Temporary Works and with such rules and regulations of public bodies and companies as aforesaid and shall keep the Board indemnified against all penalties and liabilities of every kind for breach of any such statute Ordinance or Law regulation or By-law.

Compliance with statute Regulations etc.

22. All fossils coins articles of value or antiquity and structures and other remains or things of geological or archaeological interest discovered on the Site of the Works shall as between the Board and the Contractor be deemed to be the absolute property of Board and the Contractor shall take reasonable precautions to prevent his workmen or any other persons from removing or damaging any such article or thing and shall immediately upon discovery thereof and before removal acquaint the Representative of the Engineer of such discovery and carry out at the expense of the Board Representative of the Engineer’s orders as to the disposal of the same.

Fossils, etc.

23. The Contractor shall save harmless and indemnify the Board from and against all claim and proceedings for or on account of infringement of any patent rights design trade-mark or name or other protected rights in respect of any constructional Plant machine work or material used for or in connection with the Works or Temporary Works or any of them and from and against all claims demands proceedings damages costs charges and expense whatsoever in respect thereof or in relation there to except where otherwise specified the Contractor shall pay all tonnage and other royalties and other payments or compensation (if any) for getting stone, sand , gravel clay or other materials required for the Works or Temporary Works or any if them.

Patent Rights and Royalties

24. The Contractor shall in accordance with the requirements of the Engineer afford all reasonable opportunities for carrying out their work to any other Contractor employed by the Board and their workmen and to the workmen of the Board and of any other duly constituted authorities who may be employed in the execution on or near the Site of any work not included in the Contract of any Contractor which the Board may enter into in connection with or ancillary to the works.

Opportunities for other Contractor’s

25. Except where otherwise specified the Contractor shall at his own expense supply and provide all the Constructional plant. Temporary Works Materials both for temporary

Supply of Plant Materials and Labour

and for permanent works labour (Including the supervision thereof) transport to or from the Site and in and about the work and other things of every kind required for the construction completion and maintenance of the works.

Clearance of Site on Completion

26. On the completion of the work the Contractor shall clear away and remove from the Site all constructional plant surplus material rubbish and Temporary works of every kind and leave the whole of the Site and works clean and in a workman like condition to the satisfaction of the Engineer.

LABOUR

**Hours of Employment and payment of Wages
Return of Labour Etc.**

27. The Hours of Employment Regulation and payment of Wages Act so far these are applicable to the Contractor's labour shall be adhered to by the Contractor.

28. The Contractor shall if required by the Engineer deliver to the Representative of the Engineer or at his office a return in detail in such form and at such Intervals as the Engineer may prescribe showing the number of the several classes of labor from time to time employed by the Contractor on the Site and such information respecting Constructional plant as the Representative of the Engineer may require.

WORK MATERIAL AND PLANT

Quality of Material and workmanship and Tests

29. (1) All Materials and workmanship shall be of the respective kinds described in the Contract and in accordance with the Engineer's Instructions and shall be subjected from time to time to such tests as the Engineer may direct at the place of manufacture of fabrication or on the Site or at all or any or such places. The Contractor shall provide such assistance Instruments, machines, labour and materials as are normally required for examining measuring and testing any work and the quality, weights or quantity of any material used and shall supply samples of materials before incorporation in the works for testing as may be selected and required by the Engineer.

**Cost of samples
Cost of Test**

(2) All samples shall be supplied by the Contractor at his own cost.

(3) The cost of making all tests specified in the Contract shall be borne by the Contractor.

Access to Site

30. The Engineer and any person authorized by him shall at all times have access to the works and to the Site and to all workshops and places where work is being prepared or whence materials, manufactured articles, or machinery are being obtained from works, and the Contractor shall afford every facility for and every assistance in or obtaining the right to such access.

Examination of Work Before Covering Up

31. No work shall be covered up or put out of view without approval of the Engineer or the Representative of the Engineer and the Contractor shall afford full opportunity for the Engineer or the Representative of the Engineer to Examine and measure any work which is about to be covered up or put out of view and to examine foundation before permanent work is placed thereon. The Contractor shall give notice to the Representative of the Engineer whenever any such work or foundation is ready or about to be ready for examination.

Removal of Improper Work and materials

32. (1) The Engineer shall during the progress the works have power to order from time to time.

(a) The removal from the Site within such time or times as may be specified of any materials which in the opinion of the Engineer are not in accordance with the Contract.

(b) The substitution of proper and suitable materials and

(c) The removal and proper re-execution (not-with-standing any previous test there of or interim payment therefore) of any work which in respect of materials or workmanship is not In the opinion of the Engineer in accordance with the Contract.

Default of Contractor In compliance

(2) In case of default on the part of the Contractor in carrying out such order the Board shall be entitled to employ and pay other person to carry out the same and all expenses consequent thereon incidental thereto shall be borne by the Contractor and

shall be recoverable from him by the Board or may be deducted by the Board from any monies due or which may become due to the Contractor.

33. The Contractor shall on the written order of the Engineer suspend the progress of the Works or any part thereof for such time to times and such manner as the Engineer may consider necessary and shall during such suspension properly protect and secure the Works so far as is necessary in the opinion of the Engineer. The Extra cost (if any) incurred by the Contractor in giving effect to the Engineer's Instructions under this **Clause** shall be born and paid by the Board unless suspension is:-

- (a) Otherwise provided for in the Contract or
- (b) Necessary for the proper execution of the Works or by reason of weather conditions affecting the safety or quality of the Work or by some default on the part of the Contractor or.
- (c) Necessary for the safety of the Works or any part thereof. Provided that the Contractor shall not be entitled to the recover any such extra cost unless he give notice in writing of his intention of claim to the Engineer within **28 days** of the Engineer's order. The Engineer shall settle and determine the extra payment to be made to the Contractor in the respect of such claim as the Engineer shall consider fair and reasonable.

COMMENCEMENT TIME AND DELAYS

34. The Contractor shall commence the Works on Site within the period named in the tender after the receipt by him on an order in writing to this effect from the Engineer and shall proceed with the same with the due expedition and without delay except as may be expressly, sectioned or ordered by the Engineer or be wholly beyond the Contractor's control.

35. (1) Save in so far as the Contractor may prescribe the extent of options of the Site of which the Contractor is to be given possession from time to time and the order in which such portions shall be made available to him and subject to any requirement in the Contract as to the order in which the Work shall be executed, The Engineer will with the written order to commence the Works, give to the Contractor possession of so much of he Site as may be required to enable the Contractor to commence and proceed with the construction of the Works in accordance with the program referred to in **Clause 13** hereof (if any) and otherwise in accordance with such reasonable proposals of the Contractor as he shall by notices in writing to the Engineer make and will from time to time as the Works proceed give to the Contractor possession of such further portions of the Site as may be required to enable the Contractor to proceed with the construction of Works with due dispatch is accordance with said program or proposals (as the case may be).

(2) The Contractor shall bear all expanses and charges for special or temporary way leaves required by him in connection with access to the Site. The Contractor shall also provide at his own cost any additional accommodation outside the Site required by him for the purpose of the Works.

36. Subject to any requirement in the specification as to completion of any portion of the Works before completion of the whole of the Work, the Work shall be completed within the time stated in the tender calculated from the last day of the period named in the tender as that within which the Works are to be commenced or such extended time as may be allowed under **Clause 37** hereof.

37. Should the amount of extra or additional Work of any kind or other special circumstances of any kind whatsoever which may occur be such as fairly to entitled the Contractor to any extension of time for the completion of the Works the Engineer shall determine the amount of such extension provided that the Engineer is not bound to take into account any extra or additional Works or other special circumstances unless the Contractor has, within **28 days** after such Works has been commenced or circumstances have arisen or as soon thereafter as is practicable delivered to the representative of the Engineer full and detailed particulars of any claim to extension of time to which may consider himself entitled in order to such claim may be investigated at the time.

Suspension of Works

Commencement of Works

Possession of Site

Way Leaves Etc.

Time for Completion

Extension of Time for Completion

Rate of Progress

38. (1) The whole of the material plant and labour to be provided by the Contractor under **Clause- 4** hereof and mode manner and speed of execution maintenance of the Works are to be of a kind and conducted in a manner approved of by the Engineer. Should the rate of progress of the Works or any part thereof be at any time in the opinion of the Engineer to slow to ensure the completion of Works by the prescribe time or extended time for completion. The Engineer shall so notify the Contractor in writing and the Contractor shall thereupon take such step as the Contractor may think necessary and the Engineer may approved to expedite progress so as the complete the Works by the prescribed time or extended time for completion. If the Works is not being carried on by day and by night and the Contractor shall request permission to work by night as well as by day then if the Engineer shall grant such permission, the Contractor shall not be entitled to any additional payment for so doing.

Termination of Contract for slow progress

(2) Not-with-standing any thing contained hereto in the event of the rate of progress of the Works being such that in the opinion of the Engineer Works cannot be completed by the prescribed time or the extended time, the Engineer may have the Works constructed, completed through any other agency either concurrently with or independently of the Contractor at the risk and cost -of the Contractor or the Engineer may supplement the Contractor's labour plant equipment and materials at the Contractor' cost and risk and in all such cases provisions of **Clause-39** hereof shall apply. Further the Board shall have the power to terminate the Contract and withhold payment to the Contractor till the whole of the Works have been constructed completed and maintained in the manner laid down in the Contract and the Contractor shall be liable for any loss or damage which the Board may sustain on the account and forfeiture the provision of **Clause 56 and 57** here of shall apply.

Liquidated Damages for Delay

39. If the Contractor shall fail to complete the Works within the time prescribed by **Clause 36** hereof or extended time then Contractor shall pay to the Board a sum equal to **0.5%** of the total Contract value as liquidated damages for such default and not as a penalty for every week or part of week which shall elapse between the time prescribed by **Clause No. 36** hereof or extended time as the case may be and the date of completion of the Works, up to a maximum of **10%** of the total value of Contract of the Contract. The Board may without prejudice to any other method of recovery deduct the amount of such damages from any monies in the Board's hands due or which may become due to the Contractor. The payment or deduction of such damages shall not relieve the Contractor from his obligation to complete the work or form any other of his obligations and liabilities under the Contract nor it will prejudice the Board's right to recover the actual amount of damages, which the Board may suffer on account of delay in completion of the works. Furthermore, the fact that the Board has not deducted any amount of liquidated damages during the execution of works will not prejudice the Board's right either to deduct the same from the final bill or to recover the same through recourse to law.

Certificate of Completion of Works

40. As soon as in the opinion of the Engineer the Works shall have been substantially completed and shall have satisfactorily passed final test that may be prescribed by the Contract the Engineer shall on receiving a written undertaking by the Contractor to finish any outstanding Works during the Period of Maintenance issue a Certificate of Completion in respect of the Works, and the period of Maintenance of the Works shall commence from the date of such certificate. Provided that the Engineer may give such a certificate with respect to any part of Works before the completion of the whole of the Works and shall upon the written application of the Contractor give such certificate with respect to any substantial part of the Works which has been both completed to the satisfaction of the Engineer and occupied or used by the Board and when any such certificate is given in respect of a part of the Works such part shall be considered as completed and the period of Maintenance of such part shall commence from the date of such certificate. Provided also that a Certificate of Completion given accordance with the foregoing provisions of any part of the Works occupied and used as aforesaid shall not be deemed to certify completion of any ground of surfaces requiring reinstatement unless such certificate shall expressly so state.

MAINTENANCE AND DEFECTS

Definition of Period of Maintenance

41. (1) In these conditions the expression "period of Maintenance" shall mean the period of maintenance named in the Tender calculated from the date of completion of the Works certificate by the Engineer in accordance with **Clause 40** hereof or in the event of more than one certificate having been issued by the Engineer under the said **Clause** from the respective dates so certified and in relation to the period of Maintenance the expression **'the Works'** shall be construed accordingly.

Execution of Works of Repair, Etc.

(2) To the Intent that the Works shall at or as soon as practicable after the expiration of the period of Maintenance be delivered up to the Board in as good and perfect condition (fair wear and tear excepted) to the satisfaction of the Engineer as that in which they

Were at the commencement of the period of maintenance the Contractor shall execute all such Works for repair, amendment, reconstruction, reflection and making good of defects, imperfection, shrinkages or other fault as may be required of the Contractor in writing by the Engineer during the period of maintenance or with **Fourteen (14) days** after its expiration as a result of an inspection made by or on behalf of the Engineer.

(3) All such Work shall be carried out by the Contractor at his own expenses if the necessity thereof shall in the opinion of the Engineer be due to the use of materials of Workmanship not in accordance with the Contract or to neglect or failure on the part of the Contractor to comply with any obligation expressed or implied on the Contractor's part under the Contract. If in the opinion of the Engineer such necessity shall be due to any other cause the value of such Works shall be ascertained and paid for as if it were additional Works.

**Cost of Execution
works of Repair Etc.**

(4) If the Contractor shall fail to do any such Work aforesaid required by the Engineer the Board shall be entitled to carry out such Works by its own Workman or by other Contractor and if such Works is Work which the Contractor should have carried out at the Contractor's own cost shall be entitled to recover from the Contractor the cost thereof or may deduct the same from any monies due or that become due to the Contractor.

**Remedy on
Contractor's Failure
to carry out Works
required**

ALTERATION ADDITIONS AND OMISSIONS

42. (1) The Engineer shall make any variation of the quality of quantity of the Works or any part thereof that may in his opinion be necessary and for that purpose or if for any other reason it shall in his opinion be desirable

Variation

shall have power to order the Contractor to do and the Contractor shall do any of the following:-

- (a) Increase or decrease the quality of any Work included in the Contract
- (b) Omit any such Work
- (c) Change the character or quality or kind of any such Work
- (d) Change the levels, lines, position and dimensions of any part of the Works and
- (e) Execute additional Works of any kind necessary for the completion of the Works.

And no such variation shall in any way validate or invalidate the Contract, but the value (if any) of all such variation shall be taken into account in ascertaining the amount of the Contract price.

(2) No such variation shall be made by the Contractor without an order in writing of the Engineer, provided that no order in writing shall be required for increase or decrease in the quantity of any Work where such increase or decrease is not the result of an order given under his **Clause** but is the result of the quantities exceeding or being less than those stated in the Bill of Quantities. Provided also that if for any reason the Engineer shall consider it desirable to give any such order verbally, the Contractor shall comply with such order and any confirmation in writing of such verbal order given by the Engineer whether before or after the carrying out the order shall be deemed to be an order, in writing within the meaning of this **Clause**.

**Order of variation to
be in writing**

43. (1) The Engineer shall determine the amount (if any) to be added to or deducted from the sum named in the tender in respect of any extra or additional Works done or Work omitted by his order. All such Works shall be valued at the rates set out in the Contract if in the opinion of the Engineer the same shall be applicable. If the Contract shall not contain any rates applicable to the extra or additional Work then reasonable prices shall be fixed by the Engineer.

**Valuation of
Variations**

(2) Provided that if the nature or amount of any omission or addition relative to the nature or amount of the whole of the Contract Work or to any part thereof shall be such that in the opinion of the Engineer the rate or price contained in the Contract for any time of the work is by reason of such omission or addition rendered unreasonable or inapplicable the Engineer shall fix such other rates or price as in the circumstances he shall think reasonable and proper.

**Power of Engineer to
Fix Rates**

PROPERTY IN MATERIALS AND PLANT

**Plant Etc. the
Property of the
Board**

44. (1) All constructional plant, Temporary Works and maternities provided by the Contractor shall when bought on to the Site immediately be deemed to become the property of the Board and the Contractor shall not removed the same or any part thereof without the consent in writing of the Engineer. But the Engineer will permit the Contractor the exclusive use of all such constructional plant. Temporary Works and material in and for the completion of the Works until the happening of an event which gives right to the Board of exclude Contractor from the Site and proceed with the completion of the Works.

**Revesting of Plant,
Etc.**

(2) Upon the removal of any such constructional plant, temporary Works or materials with consent as aforesaid the same shall be deemed to revest in and become the property of the Contractor and upon completion of the Works the remainder of the said constructional plant and temporary Works and any unused material provided by the Contractor shall be deemed to revest in and become the property of the Contractor who shall remove the same. If the Contractor fails to remove any of the said constructional plant, temporary Works or unused materials within such reasonable time after the completion of the Works as may be allow by the Board then the Board may sell the same and shall after deducting from the proceeds the cost charges and expenses of and in connection with such sale pay the balance (if any) to the Contractor.

**Board not liable for
Damage to plant
Etc.
No Approval by
Vesting**

(3) The Board shall not at any time be liable for loss or injury to any of the said constructional plant, Temporary Works, or material.

45. The operation of the **Clause 44** shall not be deemed to imply any approval by the Engineer of the materials or other matters referred to therein nor shall it prevent the rejection of any such materials at any such time by the Engineer.

MEASUREMENT

Quantities

46. The quantities set out in the Bill of Quantities are estimated quantities of the Work but they are not be taken as the actual and correct quantities of the Works to be executed by the Contractor in fulfillment of his obligations under the Contract.

**Work to be
Measured**

47. The Engineer shall, except as otherwise stated, ascertain and determine by admeasurements the value in accordance with the Contract of Work done in accordance with the Contract. he shall when he require any part or parts of the Works to be measured give notice to the Contractor's agent or representative who shall forthwith attend or send a qualified agent to assist the Engineer or the representative of the Engineer in making such measurement and shall furnish all particulars required by the either of them. Should the Contractor not attend or neglect or omit to send such agent then the measurement made by the Engineer or approved by him shall be taken to be the correct measurement of the Works.

**Method of
Measurement**

48. The Works shall be measured net notwithstanding any general or local custom except where otherwise specially describe or prescribed in the Contract.
